

An Applicant Tracking System to Streamline, Optimize and Manage Your Recruiting Process

E-Net Select

Lower Recruiting Costs and Improve Quality Per Hire

- ◆ Hire the best people quickly
- ◆ Reduce your cost to hire by 25%
- ◆ Save up to 50% on agency fees
- ◆ Cut two weeks or more from your hiring time
- ◆ The explosion of online job boards, company career sites and email has created a new and cost effective way for organizations to reach prospective employees
- ◆ Organizations can capitalize by using the Internet to handle the inflow of candidate information
- ◆ Our Applicant Tracking System increases recruiting opportunities
- ◆ Hiring top performing employees is faster, easier and saves money

Since 2003 organizations have used E-Net Select to hire top performing employees, while reducing their cost per hire. E-Net Select's powerful automated system gives recruiters, human resources and hiring managers time to focus on key recruiting activities while reducing administrative time and expenses. E-Net Select provides management with powerful and effective candidate screening, tracking and reporting tools.

You can focus your recruiting time and resources on promoting your organization to get top performing candidates to apply. No more manual posting of jobs internally or doing the mundane tasks of keying in or importing resumes. E-Net Select automates incoming applications from multiple sources. Global search options make retrieval of candidate information a snap.

Centralize your recruiting efforts for every position and location with one easy to use system that is accessible 24/7 to candidates and hiring managers from anywhere there is Internet access.

Prescreen candidates faster, consistently and with more reliability. You can customize any number of job specific questions for your different positions. Applicants answer the questions and E-Net Select automatically scores and records them. The candidates are then ranked from highest to lowest scores, so the best candidates can be interviewed first.

Communicate with your candidates quickly and easily, while tracking your correspondence with E-Net Select's integrated communication tools.

"E-Net Select has made our job of recruiting and selection easier and more efficient. Our entire team of hiring managers likes and values the system."
