## INTRODUCTION

If the job could talk, it would clearly define the knowledge, hard skills, people skills, behavior and culture needed for superior performance. Your unbiased input regarding the specific requirements of the job in question has been applied to the TTI Fit Job benchmarking process. The result is an evaluative report that analyzes a total of 17 separate areas, presented in Sections 1, 2 and 3. Additional feedback on each area is presented in Sections 4, 5 and 6. Suggested interview questions that pertain to each area complete this report in Sections 7, 8 and 9.

### SECTION 1: REWARDS/CULTURE HIERARCHY (6 AREAS)

This section clearly identifies the rewards/culture of the job, which defines its sources of motivation. It clarifies "why" and "in what kind of environment" this job will produce success.

### SECTION 2: BEHAVIORAL HIERARCHY (8 AREAS)

This section explores the behavioral traits demanded of the job. The higher the ranking, the more important the behavioral trait will be to the job for stress reduction and superior performance.

The results of each area are ranked on a scale, reflecting the unique levels of applicability and importance to the job. These rankings illustrate what is essential for this job to deliver superior performance and maximum value to your organization.

### SECTION 3: TASK QUOTIENT (3 AREAS)

TQ™ defines the ideal mixture of task types (Routine, Troubleshooting and Project) that provide an individual the most intrinsic motivation, or personal satisfaction. William Daniels, in his book **Breakthrough Performance** defines 4 types of tasks that we perform:

- A) **Routine Tasks** -highly predictable and have a low delay tolerance (must be accomplished immediately)
- B) **Troubleshooting Tasks** -highly unpredictable and have a low delay tolerance (must be accomplished immediately)
- C) **Project Tasks** -highly predictable and have a high delay tolerance (do not have to be accomplished immediately)
- D) **Negotiable Tasks** -low predictability and have a high delay tolerance (do not have to be accomplished immediately). Daniels states that these tasks when they are frequent should be considered as Troubleshooting Tasks, and when they are infrequent they should be considered Project Tasks.

## SECTION 4: REWARDS/CULTURE FEEDBACK

## CONFLICTING JOB REQUIREMENTS

*The TTI Success Insights Workplace Behaviors assessment is designed to analyze the job by letting the job talk. This section describes the potential conflicts or concerns for people in this position. In some cases an organization may choose to re-evaluate the position or its key accountabilities.*

This position is requiring the incumbent to have a behavioral style with the potential for me-me conflicts. This is quite common in positions and normal for individuals to possess such behavioral styles. Based on the incumbent's behavioral style, the organization may need to make modifications to the communication flow and activity levels of the position. Please review the incumbent's behavioral report for ideas that may help decrease the risk of behavioral job stress.

# BEHAVIORAL HIERARCHY

This section is designed to give a visual understanding of the behavioral traits demanded of the position. The graphs below are in descending order from the highest rated behavioral traits required by the job to the lowest.
