

## Make Better Decisions with TTI TriMetrix® EQ

"After assessing our staff, implementing EQ training, and working on employees' specific work strategies, we saw a **25% increase in** annual profits.'

Leveraging the power of three sciences, TTI TriMetrix EQ measures your ability to sense, understand and effectively apply the power and acumen of emotions to facilitate high levels of collaboration and productivity.

TriMetrix EQ combines Behaviors. Motivators and Emotional Intelligence in a fully integrated assessment.

TriMetrix EQ is available in management/staff, executive and sales versions.

Tel:

## What Does TriMetrix EQ Provide?

### **Behaviors**

Behavioral research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment. This report measures the four dimensions of normal behavior: dominance, influence, steadiness and compliance.

TriMetrix EQ tells you *how* this individual will perform.

#### **Motivators**

Knowledge of an individual's motivators help to tell us why they do things. The Personal Motivation & Engagement report measures the relative prominence of six basic interests or motivators (a way of valuing life): Theoretical, Utilitarian, Aesthetic, Social, Individualistic and Traditional.

# TriMetrix EQ illuminates what motivates this individual's behavior.

### **Emotional Intelligence**

The report was designed to provide insight into two broad areas: Intrapersonal and Interpersonal emotional intelligence. Within these broad areas, this report measures five dimensions of emotional intelligence: Self-Awareness, Self Regulation, Motivation, Empathy and Social Skills.

TriMetrix EQ focuses and improves on an individual's decision making abilities.
